DISPENSING SYSTEMS

LOGIMATIQ
: systems

- KSC   (Key Storage Cabinet)
- MP   (Multi-Products Vending)
- PPE   (Personal Protective Equipment)
- CTI   (Cutting Tool and Industrial Consumable)

REDUCE YOUR PPE CONSUMPTION

One of the many features of our system is the ability to choose a management software to control your PPEs. **Logimatiq** reduces your item consumption considerably and optimizes your Supervisor/Manager time.

- Centralized database with real time consumption analysis.
- Controlled access to product(s) for each employee or group of employees.
- Spare quantities available.
- Help save your company money.
- Machine fill rate.

ITEMS AVAILABLE 24/7

The Law stipulates that companies must provide their employees with the PPEs they require, at no charge, as well as supervise their effective use. Logimatiq ensures equipment is available 7 days a week, 24 hours a day.

- At work, the PPE dispensing system is equipped with a touch screen, featuring the information required to help employees choose the correct items needed, technical datasheets, instructions for use, job descriptions, recommendations, etc.
- The PPE dispensing system helps ensure use of the proper equipment.
- Use the company's access or clock-in/out card.
- Dispensed product out of stock warning.
- Products selected according to professional access rights per workstation.
- Lockers can be provided to store the products ordered by employees via the touch screen.

- CTI (Cutting Tool and Industrial Consumable)

EASY TO USE

Logimatiq is compatible with ALL types of access controls and badges, RFID, magnetic cards, barcode cards, etc.

1. The user selects the relevant items.

2. He swipes his badge/card in the reader. The software records: the dispensing time and date, the user's ID number and the product dispensed.

Logimatiq dispensing system is designed to fill as many requirements as needed:

• Possibility of managing 1 to 806 different items.

• A capacity of 36 to 2,500 items, with Add-On configuration.

• A number of different locker formats available: 6, 8 or 16 spaces per column.

3. Reading technical information regarding each item can be done prior to the item removal.

4. The dispensing system then dispenses the product by opening the relevant compartment.

REDUCE CONSUMPTION AND OPTIMIZE STOCK

Do you find your tool consumption hard to quantify and control? Our **Logimatiq** LOCKER dispensing system will make your task easier!

- Centralized database with consumption analysis:
    - Spare quantities;
    - Financial values;
    - Machine fill rates;
    - Complete statistics for your production costs.
- Reduction in indirect labour costs.
- Minimized stock loss.
- Monitoring of tool distribution and return.
- Optional automatic lockers.

## NO MORE RISK OF HAVING TO STOP PRODUCTION

The dispensing automat operates 7 days a week, 24 hours a day, thus guaranteeing 100% safe storage of your tools.

- Automatic replenishment.
- Rapid machine filling.
- Real time stock inventory.
- Use of the company's access or clock-in/out badge.
- Dispensed product stock-out warning.
- Products selected according to professional access rights per workstation.

EVERYDAY SIMPLIFIED MANAGEMENT

AN EFFICIENT MANAGEMENT SOFTWARE

All our machines are equipped with a functional management software package. Installed on one or more of your computers, it allows network management of your entire installed system base. This software is both easy and intuitive to use, and offers you a large variety of functions:

- Dispensed product stock-out warning and restocking.

- Definition of access rights, standard profiles per employee, and required quotas.

- Real time stock overview.

- Consumption history.

- Print out of items to be replenished.

- Consumption report, Excel export.

- Automatic link with your ERP, consumption export, integration of employee inputs-outputs, allocation change.

SIMPLIFIED INSTALLATION

A combination of 3G and Cloud simplifies automat administration.
- Secured access to the machine with no need to use the corporate network.
- Online data management.
- Remote servicing by our technicians.
- The system remains operational should the Cellular network fail.

SECURED CONNECTION for system remote administration

Web application with Internet Explorer Google Chrome, ect...

SECURED LOGISOFT SERVER

Cloud

DATA EXCHANGE WITH NO CONNECTION TO YOUR NETWORK

Cellular 3G-LTE
